Removable PTFE Strainer Cartridge

Overview

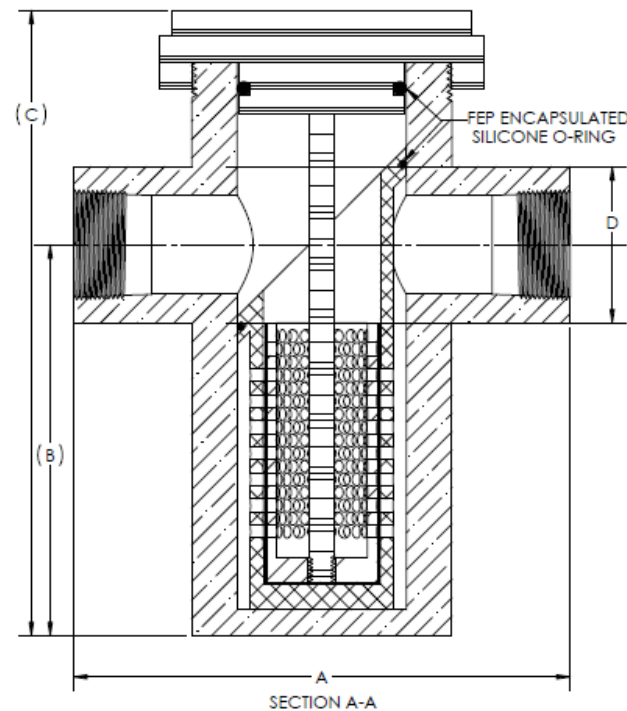

Vee’s basket strainers are designed to remove particles and debris from process lines in corrosive or high-purity applications. The elliptical cartridge style design allows for maintenance to be easily performed. The very high ratio of open area provided by the basket strainer also allows for longer time in between servicing and higher performance over long periods of time.

Construction Specifications

- All components machined virgin PTFE (white)
- Cartridge screen material PEEK mesh 400-65 standard
- Modular design, no special tools required for breakdown
- Removable Cover
- FEP encapsulated silicone O-ring seals

Dimensions

Nominal Size	A	B	C	D
½"	8"	6.5"	8"	1.25"
¾"	8"	7"	8"	1.75"
1"	8"	7"	8"	2.25"
1-1/4"	9.5"	7"	10"	2.5"
1-1/2"	9.5"	7.5"	12"	3"
2"	11"	7.5"	12"	3.75"
3"	12"	7.5"	15"	4.5"

Part Number Identification

Nominal diameter of pipe x100

Type of Connection Flanged-FNG NPT-NPT Tri-Clamp-TCP

BSTN _ _ _ **-PTFE-** _ _ _

Example: 1-1/2" Nominal Strainer with #150 flanged connections: **BSTN-150-PTFE-FNG**
